In this column we'd like to share with you some of the work and ideas of women in Detroit. There are many more things to be done, like starting your own rap group, theater group, women's newspaper, child care center, male baby-sitting service, a women's union, women's history classes, auto mechanics and carpentry classes, and women's legal aid services. How about a women's center so we can meet each other and coordinate our activities? We need to pool our energies to get some new things started in Detroit. Let us know what you are doing. Maybe we can work together.
