Books on the Spanish Revolution

On the occasion of the 50th anniversary of the Spanish revolution, we offer our small collection of books on the subject as a worthy introduction to a knowledge of the era. Although by no means exhaustive, each gives a unique perspective to the anarchist upheaval which swept Spain in 1936.

LESSONS OF THE SPANISH REVOLUTION by Vernon Richards

Just reprinted by Freedom Press, this edition contains new footnotes by the author and a review of Hugh Thomas' The Spanish Civil War. Richards' critical views of the revolution, the role of the CNT and FAI, and libertarian tactics, makes it as controversial and valuable as it was when the first edition was published 30 years ago. Highly recommended.

Freedom Press 256 pp. \$5.75

ANARCHISTS IN THE SPANISH REVOLUTION by Jose Peirats

Written by a participant in the events of the 1930s, this volume traces the history of the anarcho-syndicalist union, the CNT, from its origins through to the Revolution. Not an apology or glorification, but a thoroughgoing analysis of the successes and failures of the anarchist movement.

Self-Published 400 pp. \$3.50

TRAPPED IN SPAIN by Carlotta O'Neil

An account of the Spanish novelist's experiences during the 1936 revolution. The horror of the fascist victory, prison and finally flight are chronicled in a human manner often lost in historic narratives.

Solidarity Books 165 pp. \$2.50

A DAY MOURNFUL AND OVERCAST by “an uncontrollable” from the Iron Column

This moving and frequently unsettling text by an escaped convict who fought in the anarchist Iron Column during the Spanish Revolution, is an angry protest against the militarization and hierarchicalization of the column in 1937.

Self-published 52 pp. \$1

EMMA GOLDMAN: Una mujer en la tormenta del siglo por José Peirats

Feminista y militante libertaria, Emma Goldman tuvo una participación activa en las luchas sociales de Estados Unidos a comienzos del siglo y una presencia activa y crítica durante los primeros años de la Revolución Rusa. Vinó a España en 1936 y 1937 y contribuyó poderosamente al movimiento de apoyo a la causa popular.

VISION ON FIRE: Emma Goldman on the Spanish Revolution edited by David Porter

Vision On Fire is a carefully chosen collection of Emma Goldman’s significant, yet largely unpublished writings from the tumultuous final four years of her life. It is a powerful sequel to LIVING MY LIFE, her well-known autobiography published in 1931. Frankly revealed are her struggles with the deep contradictions of the Spanish Revolution of the late 1930s, her efforts to maintain personal integrity and vision within the heat of passionate involvement. Sexism, violence, a hostile international context, leftist vanguards, common front strategies and organization are issues faced by her in Spain.

SIMULATIONS by Jean Baudrillard

“The very definition of the real has become: that of which it is possible to give an equivalent reproduction...The real is not only what can be reproduced, But that which is always already reproduced The hyper-real...which is entirely in simulation.”

Semiotext(e) 159 pp. \$3.95

IN THE SHADOW OF THE SILENT MAJORITIES by Jean Baudrillard

“The whole chaotic constellation of the social revolves around that spongy referent, that opaque but equally translucent reality, that nothingness: the masses: A statistical crystal ball, the masses are ‘swirling with currents and flows,’ in the image of matter and the natural elements. So at least they are represented to us.” Contains four essays: “In the Shadow of the Silent Majorities,” “...Or, The End of the Social,” “The Implosion of Meaning in the Media,” and “Our Theatre of Cruelty.”

RESISTANCE TO THE PLAN HAS BEEN HEAVY by Raken T. Leaves

When I picked up this little hand-painted photocopied book of collages, I had the feeling I often do when I see the work of our friend Raken, that in a direct, playful, and untheoretical way, she expresses our own “critique and hatred for the modern megamachine. Using automatic techniques to cull technological language combined with

unsettling collages of machinery, this book indicts technological civilization by way of black humor and convulsive energy.

THE TECHNOLOGICAL SOCIETY by Jacques Ellul

"The Technological Society is one of the most important books of the second half of the twentieth century. In it, Ellul convincingly demonstrates that technology, which we continue to conceptualize as the servant of man, will overthrow everything that prevents the internal logic of its development, including humanity itself..." -Robert Theobald, The Nation

SOUTH AFRICA 1985: The Organization of Power in Black and White by S. Thompson and N. Abraham

As white rule in South Africa crumbles, two tendencies have arisen among those held subject for; so long. One is the spontaneous actions of the toughest, most politicized proletariat in the world today; the other is a battle for hierarchical power, not a battle against it. The structure of power and its coveters are examined closely in contrast to those who would shatter it.
