EARTH DAY

Wall Street Action

Who is destroying the earth—are we all equally to blame?
NO! We say go to the source. We say: Take it to Wall Street!
Monday, April 23, 1990

Wall Street houses the banks, stock traders, and corporate bureaucracy where our future is bought, sold and traded. Wall Street is the center of an economy based on limitless greed and speculation.

On Monday, April 23, the day after Earth Day, people from across the country will Shut Down Wall Street!
Contact: P.O. Box 1128, Old Chelsea Sta., NY NY 10011. 201/846-5934.
