The Montreal Anarchist Bookfair and Festival of Anarchy is the largest anarchist event in North America, and an important exchange of anarchist and anti-authoritarian ideas. The Bookfair is for anarchists and non-anarchists alike, in French and English, with participants from all over North America and beyond. Founded in May 2000, the bookfair is now entering its sixth year.

Anarchist Bookfair events include book and information tables, workshops, readings, films, presentations, walking tours and much more. Once again, the Anarchist Bookfair will be followed on Sunday, May 22—by a full day dedicated to anarchist-themed workshops and presentations. As in the past, a “Festival of Anarchy” will take place during the weeks preceding the Bookfair, with diverse events organized by anarchist and anti-authoritarian groups and individuals.

Proposal callouts for workshops, presentations, art exhibits, films, Festival of Anarchy events and tables are included. We look forward to your suggestions and contributions!
