

# **A Batalha fundraiser**

Fifth Estate Collective

2023

Three collectives belonging to the history of Portuguese anarchism, Zentro de Cultura Libertaria, BOESG (library) and A Batalha (newspaper), have purchased an Anarchist Center in the Lisbon region: a common space, open to old and new collectives, that will rid them of the pressure brought about by gentrification and real estate. The new Center will also host the archives and libraries of the three collectives. They are asking for contributions of solidarity.
