Fifth Estate Collective

1968

A reader spoke to us about a letter that appeared in the last issue from a homosexual named Paul who was being harassed by the police. We didn't ignore this letter, but wrote him back and suggested that he contact the American Civil Liberties Union. We don't know how he made out.

Those new subscribers who took advantage of the free offer of an ESP record with their subscription will have them sent as soon as possible. There may be a delay of a few weeks, but you will get them.

Apologies to anyone who went to the Cleaver for President meeting that was announced in the last issue and found it not there. The New Politics Party people who were sponsoring the meeting got confused and left about 30 people waiting out in the cold. Anyone desiring information -about the Cleaver campaign can write into the paper and we will forward your request to the New Politics group.
