

Give it up Chrysler!

Fifth Estate Collective

1968

Over 100 persons picketed the Chrysler main headquarters in Highland Park on October 25 to protest the auto company's role in the production of war material and its support of the racist government of South Africa. The marchers also were supporting the demands of the Dodge Revolutionary Union Movement (DRUM) against the Chrysler Hamtramck assembly plant. The demonstration was sponsored by the Black Panther Party and Students for a Democratic Society.
